

Global's primary business is producing 100% post-consumer recycled PET sheet and packaging. Because Global is one of few companies nationwide that completes each step of the recycling process in house, we are able to provide businesses with a variety of rPET materials and feedstock options beyond sheet and packaging.

PREMIUM FINES

Dry Fines shaken from washed RPET flake. Clear. No contamination.

GOOD (WET) FINES

Wet fines derived from RPET bottles. Typically shipped slightly damp - dry.

STANDARD FINES

Wet fines derived from RPET bottles. Material clumps due to slight presence of label glue.

BARGAIN FINES

Wet Fines/Flake derived from RPET bottles. Contains contamination from metal, cap and label.

PAPER FINES

PET Flake from RPET bottles and paper label.

GREEN FINES

Wet fines derived from green RPET bottles. Typically shipped slightly damp - dry.

AMBER FLAKE w/LABEL

Amber and regrind from RPET bottles. Unwashed, contains cap and label.

GREEN FLAKE w/LABEL

Green regrind from RPET bottles. Unwashed, contains cap and label.

POWDER

PET powder. Dry. Cheap. You should buy some.

WASHED GREEN FLAKE

Washed green regrind from RPET bottles. No amber. <500 ppm PVC

NATURAL PURGE

Natural RPET purge from Pelletizer and Sheetline. May contain backflush.

COLORED PURGE

Green and Black RPET purge from Pelletizer and Sheetline. May contain backflush.

CLEAR SCRAP ROLLS

Scrap RPET rollstock with silicone coating on one side. Available in clear and color.

PET STRAPPING

Green PET strapping.

CLEAR PET BOTTLE BALES w/LDPE BAGS

Industrial bottle bales, all clear.

PET BALES

Rebaled PET and scrap bottles.

PET SHEET REGRIND

Clear regrind from RPET rollstock and thermoforms. Contains silicone coating.

PET CONTAMINATED REGRIND

Clear regrind from RPET rollstock and thermoforms. Contains silicone coating. Contaminated with bits of tape and paper from roll core.

PET COLOR REGRIND

Color regrind from RPET rollstock and thermoforms. Contains silicone coating.

PET FLOOR SWEEP

PET sheet regrind from floor space around grinders. May contain wood, paper, and/or dust contamination.

PP CAP/LABEL

PP cap and label from RPET bottles. Wet, usually ships at approximately 10% moisture content.

PP INDUSTRIAL SCRAP LABEL

Industrial reject PP labels; loose and on roll.

HDPE NATURAL CAP REGRIND

Post industrial HDPE cap regrind; dry.

1-7 loose

In super sacs; can be baled upon request.

HDPE BALES

Mostly natural HDPE bottles.

HDPE PURGE

Natural color.

MIXED COLOR FILM

Mixed color LDPE bags. May contain PP labels.

PRINTED SHRINK FILM

LDPE film on roll.

BALED & LOSE CARDBOARD
